Acute Housing Shortage Affecting Pass Coal Output; Ask Ottawa's Aid In Making More Homes Available

Important Meeting Held Here Last Friday; Representatives Present From Bellevue to Fernie.

The acute housing shortage in the Crows' Nest Pass area from Burns to Fernie, and its relation to the critical coal supply situation, was the subject of a lengthy discussion at an important meeting held in Coleman last Friday evening. The meeting was held under the auspices of the citizens' rehabilitation committees in the district and in attendance were representatives of the various coal companies, town councils, boards of trade, unions, Canadian Legion clubs, etc. The object of the meeting was to devise some means whereby returning veterans might receive immediate assistance in the matter of securing homes through the Veterans Land Act. Present at the meeting was Mr. C. Miller, superintendent of the Veterans' Land Act, Lethbridge.

A survey of the situation showed the housing accommodation at the saturation point, with hundreds of returning veterans, both married and single, unable to obtain living accommodation. This situation is resulting in a serious labor shortage, which in turn is reflected in the inability of coal companies to meet the demand for coal. It was brought out that 500 homes would be needed to alleviate the situation. Many of the veterans who had gone away as young men were now returning desirous of setting up their own homes. A considerable number of experienced labor is also available from the cities, but unable to take advantage of jobs in this area due to housing shortage. The representatives were unanimous in their desire to attract veterans to this area whom they described as being of the proper age and of physical fitness. Wages were described as being higher than the average and conditions of employment stable.

Chairman S. C. Short asked for a review of the situation in the various towns. Bellevue-Hillcrest Rehabilitation Committee, had made an exhaustive survey of their towns and had uncovered 20 rooms available as temporary accommodation for miners. Mr. Dave Young, general superintendent of Hillcrest-Mohawk Collieries outlined the serious condition in his locality and stated that the company had secured some material and were starting to build a few housing units. The company was advancing credit to new men to purchase beds and bedding to take advantage of whatever space was available. It was understood that both the West Canadian Collieries and the Hillcrest-Mohawk Collieries were willing to turn over titles to lots, free of charge, provided homes were built thereon.

Mr. J. J. McIntyre, general manager of the Coleman companies, advocated direct action, going straight to Ottawa with the problem, and added that the companies he represents would gladly assist in any way towards getting housing accommodation in the area. In Coleman, bunks had been placed in one of the hotel basements to take care of about twenty men. Spokesmen from Fernie, Michel and Natal reported equally serious situations in their localities.

It was unanimously agreed that

the Wartime Housing scheme would be unsuitable for these mining areas. 85% of married men owned their own homes, and experience in mining centres shows that the mine worker wants to own his own home and would not pay the rent as provided under the Wartime Housing scheme. Neither was it felt that the type of homes under this scheme would be suitable for mining towns.

Mr. F. J. Lotte, manager of National Employment Service, Blairmore, outlined the provisions of the Veterans' Land Act, particularly with regard to the Small Holdings scheme. In order for veterans to obtain assistance under this scheme it was necessary to acquire a minimum of one-half acre of land. This brought forth considerable discussion, and it was fully agreed that owing to the topography and limitation of arable land in this area, veterans were denied the privilege of obtaining assistance under this scheme as it now is constituted. Having in mind the whole situation with regard to coal supply, it was agreed that representations be made to the Government to have this district declared a special area with respect to the Small Holdings scheme whereby a veteran could build a home under this scheme without the necessity of acquiring half an acre of land.

Mr. Miller gave his views after listening quietly to the discussions. He was skeptical of the Veterans' Land Act being the vehicle under which assistance could be obtained. He reviewed the situation on a broad plane and showed how, if any changes were made, it would affect the plan on a Dominion scale. His only solution to the entire problem was to put the case before the proper authorities at Ottawa, explaining how the situation was so radically different from areas in other parts of the Dominion and petition Ottawa to devise a Veterans' Housing scheme to take care of the particular circumstances prevailing in this district. He remarked that other areas were also exerting some pressure to get additional housing to take care of labor problems. Mr. Miller revealed that Alberta's quota under the Veterans Land Act for 1946 was only 200 homes.

It was revealed that 1,400 men had enlisted from this district.

There was more usual permanence in the coal mining industry in this area, and the Government could have every confidence that the risks involved in setting up a Housing Scheme in this area would be more than reasonably assured of success. Canada produced seventeen and one-half million tons of coal yearly while consuming forty-eight million tons—the industry was assured of ever-increasing markets for their products.

It was agreed that a resolution be drafted by the chairman and a committee presenting the whole matter before the Government at Ottawa.

Mrs. John Morrison has been added to the brides' committee of Coleman's Reception and Rehabilitation Committee.

NEW DOCTOR ARRIVES
IN TOWN

DOUG. PLANTE REPORTS
FIRST ROBIN

Dr. D. Hope Gill, recently returned from a Japanese internment camp in North China, arrived in town during the week and has commenced work alongside Dr. Liesemer.

Dr. Hope Gill along with his wife and two children were in North China when it was invaded by the Japs. They were placed in an internment camp where they remained for four years. Mrs. Hope Gill and children are expected to arrive in Coleman this Sunday from California and will make their home in the residence vacated by Dr. Maynes and owned by International Coal and Coke Co. on Park Terrace.

A.M.A. Answers Fallow, Denies Political Motive

Main Objectives: Better Roads And More Tourists.

Officers of the Alberta Motor Association have issued a statement in reply to the published report of a speech recently delivered in the legislature by Hon. W. A. Fallow, minister of public works and highways.

Mr. Fallow is reported to have said of the association that it had "degenerated into a poorly-camouflaged political organization whose political purpose is to embarrass the government."

The association's statement, signed by its president, James Cleave, follows:

The Alberta Motor Association is a purely non-political body, whose directors give their services voluntarily and without remuneration of any kind for public purposes, one of the main objectives being the securing of better roads throughout the province and the encouragement of a large index of tourism, from whose visits all will benefit.

It has never acted from political motives. It desires to co-operate to the fullest extent with the government of the province towards securing these objects for the benefit of our motorists, business organizations, tourists, farmers and inhabitants generally.

The AMA is working in close cooperation with other non-political bodies, such as the UFA, the Union of Rural Municipalities, the Alberta Motor Transport Association, Boards of Trade, etc., to secure better roads.

Many of our members and directors are supporters of and friendly to the government in power, and we realize that the premier of this province has been indefatigable in his efforts to promote and protect the interests of our people. Its record should not be spoiled by bad roads!

The hundreds of new members who are joining our association month by month and many hundreds more whose support we expect to obtain in the coming months are supporting the efforts of our association for the construction, improvement and maintenance of roads throughout the province, for the benefit of every citizen.

"Fantastic" Statement

The minister is further reported as saying that from 1931 to 1945 over \$79 million had been spent for highway purposes, an expenditure of nearly \$3½ millions "greater than the revenue for those years."

This statement can only be described as fantastic. It is entirely at variance with audited public accounts published by the provincial government.

Mrs. J. Derbyshire and Family.

New Armored Brigade Workshop to Ultimately Absorb \$250,000 in Equipment And Armories

R.C.E.M.E. Officers Addressed Public Meeting Here On Monday; Interest Increasing Throughout This Area.

In the newly organized RCEME Workshop in the Crows' Nest Pass is definitely on the upswing as was witnessed by the numerous questions asked by citizens at the public meeting held in the Coleman council chambers on Monday evening and which was addressed by Major G. W. O'Neill and Captain L. Raisbeck, of RCEME, and by Captain H. A. Payne, of the Strathcona Horse.

Captain Payne stated that the purpose of organizing the RCEME Workshop was to aid the 6th Division of the Reserve Force. There were many technical men working in the mines, those enlisting for the Workshop would be given ultra modern equipment with which to work and it was undoubtedly the best in the British Empire. The Workshop would provide maintenance and repairs to the armored brigade.

Major O'Neill stated that the Workshop would be an asset to the district. The youth of the district particularly would be given an outlet for their energy as they would have the opportunity of learning something useful.

One important point touched by Major Smith was the fact that when a tradesman became proficient at his trade he was granted a certificate from the Workshop which in turn would be recognized by civilian industry. It was to the advantage of miners to enrol at the Workshop as the mines were becoming more mechanized every day.

The question period was quite lengthy.

It was revealed that if certain instructors were unavailable here they would be brought down from MD 13.

The amount of money involved in setting up a Workshop was estimated in the vicinity of \$250,000. This huge amount included trucks which cost \$20,000 or more each, there are seventeen vehicles, and then there are the permanent depots to be set up, etc.

While the Workshop requires 285 technicians and tradesmen it requires only a total of 200 members before Ottawa guarantees to set up a civilian rifle range. A Rifle Association is set up and everyone is taught how to operate guns of various calibres, and should anyone become really proficient at the art of shooting he is allowed to enter competitions national in scope.

Those joining the Workshop will receive the basic training of a soldier as well as a tradesman.

A man who was qualified in a certain trade during the last war may be re-enlisted and employed at a tradesman pay.

A recruiting party will be in the Pass next Monday and on dates yet to be determined will come to Coleman for two days, the recruiting to be done in the local Canadian Legion Club room.

Coleman's committee includes Chris Rogers, chairman; John McDonald, secretary; Frank Aboushy, John Ramsay, Adam Wilson, Stuart Murdoch, George Evans, Ellis Derbyshire and Alex Balloch.

Prior to the meeting, the officers from Calgary and Major Smith were the guests of the Lions club at the regular supper meeting.

SUGAR RATION IS UNCHANGED

There is no reduction in the ration of either sugar or preserves, because of the merger of sugar and preserves coupons. C. G. McKee, regional superintendent of rationing, emphasizes Mr. McKee pointed out that in certain months of 1946, as in March, three sugar preserves coupons will become valid. This will not be additional sugar, but will keep the 1946 ration-

ing at par with the ration during the last eight months of 1945. In addition, the canning of sugar per person will be the same as in 1945. Mr. McKee stated.

WORLD HAPPENINGS BRIEFLY TOLD

During the war, South American oil production increased more than 400,000 barrels daily.

The King has given £100 (\$450) to the centenary appeal of the Surrey County Cricket club, of which he is Patron.

Letters in 182 languages were composed by the School of Oriental and African Studies, University of London, during the war.

Service in the British telephone service is anticipated from the release of 1,100 switchboard operators from the army and civil defence exchanges.

The South African government is using DDP in Zululand in an effort to wipe out the tsetse fly, dread carrier of sleeping sickness. Areas are being sprayed from the air.

The national central bulb committee of Holland recently presented 30,000 tulip bulbs to the Royal Botanic gardens, Kew. A similar gift was made to the royal parks.

Generalissimo Chiang Kai-shek hinted that his retirement from active public life might be impending this year after 18 perilous years of civil strife and war at China's helm.

Avon Castle, former seat of the Earl of Elgin, has gone up for sale for an asking price of £35,000 (about \$157,000). The present earl—11th in the line—now is farming a few miles south of Calgary.

More than 95,000 copies of the Scriptures were circulated during 1945 by the Upper Canada Bible Society; it was reported at the annual meeting of the Society in Toronto.

Curling Match

The Roarin' Game Played In Germany By Canadian Troops

"The roarin' game wi' broom and stane," made its debut in CAOAF's few days ago when Major-General Chris Vokes, CB, CBE, DSO, GOC, 3rd Canadian Infantry Division slung the initial rock down the ice to open the Curling Rink at Oldenberg-airport.

Plans for the rink were started last autumn by Brigadier Colin Campbell, at that time overseas representative of the Dept. of Canadian Association, got approval for the venture. When Brigadier Campbell left for Canada Lt.-Col. R. F. Johnson, RCEME of Barrie, Ontario, took over the reins.

The big problem to organize a Curling League in CAOAF was to find an arena with artificial ice. No such place was available.

Col. Johnson conducted a recce and ended up by securing a hangar at the Oldenberg airport as the site. Pipe and power plant for the artificial ice setup was a straight scrounge. The cables, pipes, and electrical control field were constructed by 3rd Canadian Works Section RCEME. Student welders, and RCEME and RCEME welders were employed to set up the pipe system.

Stones for curling were almost an impossibility. The original plan was for 48 sets. These could be purchased through Scottish factories, but wartime restrictions made no provision for handles.

Auxiliary Services in Edinburgh put in a bid in Scotland's newspapers. Result was that the good Scotmen of the Royal Caledonian Curling Club kicked through £1,000 to help.

Brooms were the last straw. These were shipped from Canada.

Six rinks are now going strong. Each brigade and division troops will be allotted one day a week on the rinks. Saturday and Sunday matches will be arranged through Lieut. H. S. Olson of Hibertown, Sask., who heads the draw committee.

According to lists made in the hands of Capt. G. M. Scott of Calgary chairman of the committees, there are almost 400 people in CAOAF interested in curling. The greater percentage of these are other ranks.

The two rinks which prove themselves the best in the draw will have the opportunity of going to Scotland to play with the Royal Caledonian Curling Association at Edinburgh.

Constitutes A Hazard

Ripple Rock In B.C. Waters Is A Great Danger To Shipping

Senator G. G. McGeer renders public service when he insists that the work of removing Ripple Rock shall be rushed to completion.

Ripple Rock is a traffic hazard in Canadian waters between the northern part of Vancouver Island and Quadra and Maude Islands. Great sucking, gulping whirlpools, sudden in their appearance, but yards in radius, and up to 20 fathoms deep, capable of engulfing huge logs and small launches and of splitting them to pieces like matchsticks.

Ten deep sea and coastal ships have been wrecked on Ripple Rock in recent experience. The number of small vessels which have disappeared without trace is a matter of conjecture. But every coastal navigator views the hazard with something resembling dread, if not terror.—Vancouver News-Herald.

ESCAPE FROM BURNING HOME AT STONEY CREEK — Frantic efforts of his father and three brothers failed to save the life of Ivan Hystop, 17, trapped in his family home near Stoney Creek, Ont. Mr. and Mrs. Hystop and one son are in hospital. Uninjured, David Hystop, 10, managed to escape from the building. Russell, 11, holding his sister Margaret, cut his hand in jumping. The baby was dropped from a window.

DEER RESCUED—Rescuers tried for two and a half hours before they were able to get this deer out of the water. A resident of Owen Sound, Ont., discovered its plight early in the morning.

Must Be Definite

Mall Sorters Might Have Trouble In Deciding Which "Woodstock"

"What's in there?" could well be the query of many sorters. A bit of research produced the surprising fact that there are at least 15 Woodstocks in this world, including Ontario's city.

"Off hand I can't name at least six," Postmaster James Steele said when asked about the number of Woodstocks.

Actual counts show two Woodstocks in Canada, Ontario and New Brunswick. The Woodstock, Oxfordshire, England, is known to most people.

In the United States there are 12 Woodstocks. The state of Connecticut goes even farther and besides having Woodstock has West Woodstock and Woodstock Valley. Other states claiming the name are Alabama, Georgia, Illinois, Indiana, Maryland, Minnesota, New Hampshire, Ohio, Vermont, Virginia and Wisconsin. Iowa nearly made the grade with Woodstock.

Cost Of War

Millions Of Lives Lost In World War Two

The Axis paid most heavily. Germany lost 3,250,000 men.

Japan's military losses ran to about 1,500,000. Italy's losses were between 150,000 and 200,000, and the Nazi satellites, including Romania, Finland, Hungary and Bulgaria, totalled about 225,000.

Russia, with 3,000,000 deaths, had two-thirds of the total Allied losses. (American official estimates of Russian losses run as high as 7,000,000.)

The British Empire lost 400,000 killed in action.

The United States had 325,000 battle deaths.

The Free French lost 167,000, Poland about 125,000, and the Yugoslav guerillas 75,000.

Greece lost over 50,000, Belgium's 7,000, and Holland in five days of fighting in May 1940, had 6,000 killed.

China, since Pearl Harbor, has lost estimated 250,000 men.—Metropolitan Life Bulletin.

THE EXPLANATION

There was great consternation in the corporation office. The general manager had forgotten his penknife, which he used every afternoon to pare his fingernails. He made the rounds of his staff, but nobody had a knife.

Finally, the exaggerated general manager called the office boy. To the general manager's delight, the lad produced a penknife.

"How is it, Tommy?" asked the general manager, "that you alone of all my large office staff always seem to have your knife with you?"

"I reckon," answered the boy, "it's because I can't afford more than one pair of pants."

The red, sunny side of an apple contains more vitamin C than does the greener, shady side.

GARDEN

NOTES

Peace And Gardening

In this first year of peace it will be good to get back and plan a garden. After six years of world turmoil, of shortages and rationing, we are now free to get back to digging in the soil, to making plans in the assurance of what he shall sow he can expect to reap. This spring there will be an abundance of varieties of new flowers and vegetables unknown to those of us who have been used to shopping, and there will be solid satisfaction, relief for jaded nerves, in making plans, sowing the seeds, setting out plants and watching these tiny things grow in beauty, and in the case of vegetables succulent meals for the table.

Planning

A plan of the garden drawn roughly to scale will be most helpful. On this should be plotted the main features—that is, the approximate size and location of trees, shrubs, walls, and so on. It is good to adapt with flowers and shrubbery to remember that these require about half as much space between as they will be high at maturity. The latter is most important.

Too many beginners never think when setting out a lilac or plum tree that the little bit of a thing that has been sent to them from the nursery will some day, and in a very few years at the rate of feet per year, be difficult to cultivate and weed, or even to see out of the windows. Moreover, trees, shrubbery or flowers much too close together, and in the case of foundation planting, much too close to the house, will hinder growth and spindly branches will not be able to support the first heavy wind that comes along.

Get a Catalogue

A good Canadian seed catalogue will prove an invaluable guide. In these are listed such vital information as seasons, times of blooming, so many days to maturity, height, color, hardness and other points that the good gardeners take into consideration when laying out their season's campaign.

The First Vegetables

The vegetable garden to be sown in the spring includes radish, spinach and garden peas. The first sowings of these can go just as soon as the soil has dried sufficiently so that it will work up without turning to mud. Almost as soon as the first carrots, beets and onions. Later will be the first potatoes and beans. Make at least three sowings of all vegetables two weeks apart, and even more if season and location are favorable. Use early, medium and late varieties.

TREASURES RESTORED

The London Times reports that Goering actually succeeded in getting stolen art treasures from Italy into Germany, but happily all have been recovered. Forty packing cases containing treasures taken by Mussolini from the Rome galleries when he left the capital were cleverly intercepted and rescued in transit under the very noses of the S.S. men to whose custody they had been entrusted. It is reported.

Santos, Brazil, is the leading coffee port of the world.

Prevention Of Famine

Problem Calls For United Action Of All Nations

The problem of preventing famine and starvation is one that calls for the united action of all the nations.

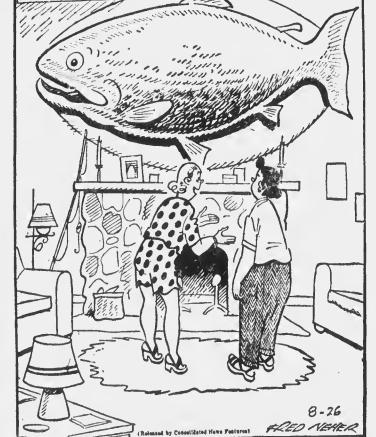

But the challenge is greatest to those countries, such as the United States, which possess a surplus of food stocks. It should shock the American people to the marrow that our consumption is up 34 per cent above last year. Fortunately the American plan to send food abroad has met with very warm and widespread approval. We have never failed yet to meet the cry of the hungry and destitute. The need is to demonstrate that much must be done that is called for by the existing program. Unless such relief is made available, the very foundations of the United Nations will be undermined.

To Feed Right — Eat Right!

LIFE'S LIKE THAT

By Fred Neher

REG'LAR FELLERS—Excess Baggage

SUN.	MON.	TUE.	WED.	THU.	FRI.	SAT.
Pot Roast of Beef	Shep- herd's Pie	Mac- aroni Scallop	Veal Stew	Corned Beef & Cabbage	Fish	Corned Beef Hash with Parsley Sauce
Group C left- over	unrat- ioned	Group C	Group C	unrat- ioned	left- over	
4 lbs. 2 coupons		1 1/2 lbs. 6 tokens	2 lbs. 1 coupon			
2 tokens for 10 oz. sausages.						

A pot roast of beef animated with colorful vegetables will get the week off to a savoury start. On Monday it can be revamped as a Shepherd's Pie. If you haven't enough left-over gravy to moisten the ground meat, try a tin of tomato or vegetable soup and top the combine with fluffy mashed potatoes. Aside from these two meals, you may find that the four pound roast will leave you with some useful remnants for lunch, however. Macaroni, hash browns and mince meat are possibilities. Then individual cakes can be browned in a small amount of fat and served piping hot with a parsley sauce. Friday is yours to make a fish selection. Two tokens remaining from the week's purchases might be devoted to 10 ounces of sausages to highlight Sunday's breakfast eggs.

Something New

Cooks Are Advised To Try Raw Parsnips In Salad

When apples were plentiful one of the favorite salads was the Waldorf salad made with diced radish, radish, and garden peas. The first sowings of these can go just as soon as the soil has dried sufficiently so that it will work up without turning to mud. Almost as soon as the first carrots, beets and onions. Later will be the first potatoes and beans. Make at least three sowings of all vegetables two weeks apart, and even more if season and location are favorable. Use early, medium and late varieties.

MAGIC CHEESE BISCUITS

1½ cups flour 1 tbspn. shortening
½ cup sugar 6 tbspns. grated cheese
½ cup cold salt 2 eggs
2 tspns. Magic Baking Powder
(When half-baked, place square of cheese on top of biscuits for extra flavor)

Sift dry ingredients together; cut in shortening. Add cheese. Mix lightly; add milk slowly. Roll out one-half inch thick. Cut into squares. Bake in hot oven (475° F.) 12 to 15 minutes. Makes 12.

Historic Canvas

Portrait Painter Of Texas Commissioned To Paint The Big Three

Douglas Chandler, portrait painter of Weatherford, Texas, has been commissioned to paint the Big Three of World War II—the late President Franklin D. Roosevelt, Winston Churchill and Joseph Stalin. Chandler accepted the assignment to the Dallas News from Miami Beach, where he started the Churchill portrait.

The late President Roosevelt discussed the painting with him only a few days before his sudden death. Chandler said, "President Truman wrote Mr. Churchill and Premier Stalin requesting their co-operation, added. Chandler plans to go to Moscow to paint Premier Stalin and then add the Big Three into a historical canvas. At the Yalta conference scene as the background. The finished work will hang in the Capitol at Washington."

The only two continents on which certain kinds of birds have become extinct in historic times are Australia and America.

OUR COMPLETE SHORT STORY—

LEADING LADY

By MARION BOUCHER

Copyright Wheeler Newspaper Syndicate

DAN is really a dear and I'd rather have him than a husband than Charlie Boyer himself, but sometimes he is terribly forgetful. It was unpredictable of him to forget about the play.

We were having breakfast that morning when he calmly announced: "Won't be home for dinner tonight. Doris, I'm going to see Ferris at last about that advertising contract I wanted to bring him here for the evening but he seemed to have other plans. Anyway, I am taking him to dinner and we'll be able to discuss matters."

"And that's what you intend to do tonight Dan Crawford?" I asked in alarm.

"Why, hon, why not?" Dan gulped down the last of his coffee and looked at me with an innocent air which I found very aggravating. When I didn't say a word, he continued: "You know it's weeks since I've been trying to see Ferris and yesterday I finally got hold of him. Sure hope I can swing the deal!"

"But tonight's our Little Theatre play!" I protested. "Dan, how could you forget? Or maybe you can't be bothered with it—maybe you don't want to see me act?"

"Doris, help me, it slipped my mind completely! I was so anxious to see Ferris that I didn't think of anything else. I do want to see your play, but, gosh, I don't see how I can manage. Perhaps if we get through early . . . but you'd better not count on it!"

Oh, but you must be there!" I was almost in tears. "What will people think if you aren't? I don't see how you could do so thoughtless as to forget about our play."

"I don't see how I forgot either when that's all I've heard you talking about lately," Dan was angry now. "And by the way, I'm darn glad it's over so early. I am getting pretty tired of coming home to a cold supper with you rushing off to rehearsals every night."

"Why, Dan, you know you're exaggerating—it hasn't been even once! Of course you have to rehearse a lot when you're in a play,

so excited and happy I almost forgot Dan and the quarrel we had—almost, but not quite. Secretly, I wished that he were there to share my little triumph.

The play was over although the audience was still applauding heartily. "That clapping is really for you, Mrs. Crawford," Mr. Milford said graciously. "You have a wonderful spirit into year role tonight."

There were other compliments but suddenly my success turned to ashes. I didn't care about the play any more—I was thinking of Dan. Slowly, I began to remove my grease paint. "Hurry up, Doris." It was another girl in the cast speaking to me. "We're going to have a party to celebrate our success."

"Sorry, but Doris is coming with me."

Was it really Dan's voice? I whirled around. Yes, there he was. "You were great, hon. I was so proud of you!"

"Put . . ." I murmured, "have you been here all evening? About Ferris?"

"Of course I've been here all evening and Ferris was with me. He's very anxious to meet you. You know, it was a funny thing. After dinner I decided to tell him that I had to get away—explained that my wife was taking part in a play and I wanted to see it. And that was exactly what he wanted to do! He's very keen about dramatics and had tickets for this play so we came together."

"Did you get the contract?" I asked.

"Yes and I thank you helped me put the deal over. Ferris didn't say much all during dinner but he just told me a few minutes ago that it was okay. Guess it was because he was so impressed with your acting!"

"Oh, Dan, I am sure that's not the reason but I am so glad!" Then I called out to the others. "Sorry, folks, but I am not joining the party—I am going with my husband. From now on I am going to concentrate on being his leading lady!"

Few Practice It

Hari-Kari Is Very Sedom Committed

By ANNE ADAMS

This curious suicide by the sword, called hara-kari, is what might be called a fake, says the straightforward Gazette. It is a pretty, much phonier. The tradition is held up to the rank and file as a grand old Japanese custom in which great leaders showed off their complete devotion to the emperor.

The fact is that hara-kari was rarely committed by top ranking leaders and only occasionally by second raters. It was something for leaders to preach about but they didn't often produce the bodies.

You will notice that Tots' Togs used a picture of a boy and Prince Konoye took poison. Most of the "so sorry" leaders just go to jail and in due time will pay an extremely formal visit to the hangman. In short, hara-kari is more of an idea than a practice.

Tots' Togs

Illustrated by Ted

I knew I was playing my part well,

but I thought you were proud that I was given the lead."

"I am going to be late for my bus," Dan muttered and hurried away without even saying goodbye. I watched him stride down the walk and couldn't prevent a few tears spilling over. We don't quarrel very often and I always feel badly when we do.

But to think he'd forgotten all about the play! Our Little Theatre Club had been slaving over it for weeks. I was the only one who can see it. Like the leading lady and Mr. Milford, our director, who didn't hand out many compliments, had told me that I played my part very well. "Although," he had added critically, "you could put a little more fire in it."

I felt a little guilty when I thought that Dan had said about cold suppers. Perhaps I had neglected him a bit lately. I had been so absorbed in the play. And now we'd had this stupid quarrel!

I picked up the breakfast dishes and went to wash them above the kitchen sink. All day I kept thinking nonsensically of Dan. I didn't expect him home at noon, as he always has lunch downtown, but I kept hoping he'd phone. The day went by without a word from him.

"Very well, Mr. Crawford!" I thought angrily as I got ready to go to the theatre that evening. "If you don't care about my activities I can get along quite nicely without you. Other people appreciate my talents!"

Hadn't I often been told that I should have gone on the stage? Well, I might yet!

Then it was my anger which helped me play my role with more than my usual spirit and dash. After the first act, I knew the play was going to be a success, knew too that I was playing my part well. I was

Emperor Hirohito

Huge Flying Boats

Is Showing Himself To Be A Will Likely Used On British Civil Shred Diplomat

Emperor Hirohito is not the mental defective which many believed him to be. He is showing himself as one of the shrewdest and most astute diplomats and politicians the world has seen. No man has ever made a faster transition from one of the outstanding despots to a high-principled statesman.

Throughout his whole reign, he has been an untouchable, absolute monarch. Today, he is a charming, affable democrat, concerned only with the well-being of his people and of humanity in general. The transformation must be looked on as miraculous—or friendlessly subtle.—Windsor Star.

Britain is to have a civil flying boat bigger even than the one hundred and ten "Brabazon One" airliner now under construction.

The giant flying boat will carry one hundred passengers at a speed of three hundred and fifty miles per hour for a distance of five thousand miles. It will weigh one hundred and twenty tons.

The London Daily Herald correspondent reports that twenty of these aircraft will probably be ordered by British Overseas Airways at an estimated cost of fifty million dollars.

They will be used on British civil air routes.—Ottawa Citizen.

Columbus son made the first settlement Jamaica in 1509.

Nothing To Buy --- Nothing to Sell

Here is a fascinating and educational puzzle game, in which you can quickly qualify for the grand prize of \$1000. ABSOLUTELY NOTHING TO BUY—NOTHING COSTS NOTHING TO WIN.

Below are given the names of 30 United Nations Capital Cities. Each of the letters used to form the name of these cities has a certain value in point, as shown in the letter-value chart. The object of the puzzle game is to fill in, as on an ordinary crossword puzzle—the names of 15 United Nations Capitals, whose combined letters will total up to the highest possible point value.

SIMPLE RULES

Starting with either WASHINGTON or LONDON—all in the blank white squares or spaces with a separate letter, so that each section of the grid will have the name of a capital city. Names must be complete and no spaces are to be left blank. Spell from left to right and from top to bottom. Not only one word can be used in any row or column.

The names WASHINGTON and LONDON must remain as they are in the chart as shown. All other letters in the names including Washington and London (except letters which have zero value) must have a value assigned to them. Letters which join to connect two names have 5 times their regular value. The letter "S" in WASHINGTON is worth 10 points, instead of its regular 2-point value. Likewise the letter "L" in LONDON is worth 15 points. In LONDON the "L" is worth 20 points. Only the two letters have 15 points. Only the letters in the names of 30 Capital Cities may be used. No name to be used twice and spelling must be the same as in the list.

When all the white spaces are filled with letters, spell each row across (horizontal line) and then fill in the total of each horizontal line in the space provided. Then spell each column across (vertical column). Then add up all the horizontal totals at the bottom to obtain the Grand Total. All those contestants who succeed in finding the highest correct total will be qualified and eligible to take part, without any delay, in the Final or Tiebreak contest, which will decide the cash prize winners.

When you have solved the puzzle and completed the names, print the names and address in the space provided below the puzzle chart. Then mail promptly to the Kamloops Recreational and Sports Association, 1000 Columbia St., Kamloops, B.C., Canada. Send no money.

Prizes will be awarded as follows: First Prize \$1000.00, Second Prize \$100.00, Third Prize \$50.00, Fourth Prize \$25.00—next 31 Prizes \$10.00 each—another 33 prizes each \$3.00 and another 33 prizes each \$2.00. 115 Prizes in ALL—Total Value \$10,000.00—including Bonus Awards.

Remember the contest is entirely FREE. There is nothing to pay—nothing to buy or sell. THIS POSITIVELY IS NOT A LOTTERY.

QUALIFY FOR \$4,000.00

Be sure to mail your puzzle solution promptly

at SPECIAL EXTRA bonus price of \$10.00

with better odds for 3 Major winners as a reward for promptness.

The same day we receive your answer, we will

tell you how you may qualify for STILL LARGER and more generous Cash Prizes, in which YOU CAN WIN AS MUCH AS \$4,000.00. In this BIGGER CASH PRIZE DISTRIBUTION, a total of TWELVE THOUSAND DOLLARS more will also be given away in the next few weeks.

We want thousands of people across Canada to know all the wonderful scenic beauty including the famous lakes, mountains, rivers and streams of the most excellent fishing and hunting in the world—all located in this immediate territory which includes the most beautiful cities and towns.

Also included in the tourist literature describing the unexplored vacation lands of British Columbia, will be sent to all.

Answer the puzzle now. Don't delay. Enter in the

lottery. Anybody can take part. Judges are all well known men.

week, March 4 to 8. The principal speakers are Miss Olive Sparling, from Toronto, recently appointed field secretary for the religious training of children; Miss Mary Mansfield, of Vilna, Alberta; Miss Grace Trinder, of Calgary; Miss Margaret Mann, girls' work secretary, and the Rev. J. C. Gardner. Mrs. W. E. Kemp, branch president, is presiding.

As this is the twenty-first anniversary of both the United Church and the Women's Missionary Society of the United Church, it was celebrated at a banquet last evening, March 6, in the Buffalo hotel.

A school for leaders has been carefully planned, with Miss Trinder as discussion leader for mission band work, Miss Mann for girls' work and Miss Sparling to give advice and help in those or other departments. The devotional theme follows the World Day of Prayer service as outlined in the February issue of the Missionary Monthly.

Mrs. D. Thorne, of Red Deer, is general convenor of the sessions.

WEDDINGS

SNIDER—TIBERGHEN

A marriage of much interest to the Coleman younger set took place at Central United church, Calgary, on Friday, March 1, when Lydia Tibergien was united in marriage to Steve Snider. Rev. Andrew Lawson conducted the service. Attendants were Miss Elsie Snider, sister of the groom, and James Allan jr., brother-in-law to the groom.

The bride, given in marriage by her brother, Mr. Henry Tibergien, was gowned in a two-piece gray crepe dress, with grey straw hat with cerise and cerise accessories. Her corsage was of pink roses, black violets and lillies of the valley.

The bridesmaid, Miss Elsie Snider, wore a mauve crepe dress, black straw hat and black accessories. Her corsage was of yellow roses.

Following the ceremony a reception was held in the Empress hotel, where covers were laid for nine. Attending the wedding were the bride's mother and her brother Henry, Miss Elsie Snider, Miss Dorothy Carruthers, Mr. George Burles and Mr. and Mrs. J. Allan jr.

On Saturday evening the party, with the exception of Mrs. Tibergien, attended a dance in the Paliser hotel, where they were joined by Mr. and Mrs. Harry Watkins, friends of the bride.

A reception for the young couple was held on Tuesday evening at the east Coleman home of the groom's parents, with 50 friends in attendance. The luncheon, dancing and singing were enjoyed to the wee hours of Wednesday morning. The honored couple were the recipients of many beautiful gifts from their friends present. The happy young couple will reside in east Coleman, the groom being an employee of International.

TAKE PRIDE IN ALBERTA

Currently appearing in weekly and daily newspapers is a series of advertisements sponsored by the Calgary Brewing and Malting Co. The advertisements are titled "Take Pride in Alberta" and set out in

both picture and written form the achievements and future possibilities of our province.

Far pastures look green when we fail to notice the luxuriant growth right under our feet. We become so accustomed to our own advantages that we fail to realize just how well off we are until our good fortune is pointed out to us. These well written, well planned and timely advertisements should bring to all Albertans a new appreciation of their province as well as selling Alberta to many new settler citizens.

The same company is also sponsoring a series of radio broadcasts by Capt. J. Harper Prowse, army representative in the provincial legislature and newspaperman who has, through his untiring efforts, become the No. 1 spokesman for returned men in this province. His weekly broadcast may be heard Sundays from CFAC, Calgary, at 9:45 p.m. or from CFRN, Edmonton, Thursdays at 8:15 p.m.

BORDENS MOVE TO VICTORIA

According to a change of address received at The Journal office Dr. and Mrs. R. P. Borden have moved from Vernon to Victoria, B.C. To those friends who may wish to correspond with them the new address reads "Acresy," RMD No. 4, Victoria.

T. B. Questions and Answers

Q. What causes a wheezing noise in the lungs?

A. This is usually due to small particles of mucus which adhere to the trachea and bronchial tubes. Sometimes it may be the result of other things causing partial obstruction of the bronchus, such as bronchial tuberculosis.

Q. At times my chest aches and feels as if a weight were pressing on it. Is it normal?

A. No. Probably there is a reason for it. Tuberculosis at times causes such a sensation, as well as indigestion, nervousness, heart disease, lung diseases, etc.

JOIN
the RED CROSS

And help us carry on this work that MUST be done

+ Crippled children throughout Alberta have been helped for a quarter of a century by the Red Cross. Nearly five thousand have been given treatment at the Junior Red Cross Crippled Children's Hospital. This care includes the physical, mental and social development of the children in their school subjects by qualified teachers, instruction in handicrafts and other pastimes to keep the little patients interested and happy. AND IT'S ALL FREE TO THOSE WHO NEED IT. A new hospital is about to be built to give better facilities for restoring health and strength to these little deformities before you help to give a crippled child a chance to run and play and have a happy useful life!

+ The need for blood donor clinics and blood banks is not over. While the terrible demands of the battlefield are mostly at an end, there are still lives to be saved in our own communities by blood transfusions. The Red Cross plans to maintain clinics to make this life-saving service freely available to our own citizens when the emergency arises. One million dollars will be required to provide this free service to civilians in Canada.

+ Training our citizens in first-aid and home nursing — instructing our junior members (42,225 of them in 1,693 branches in Alberta's schools) in health, safety methods and good citizenship—helping and visiting our wounded veterans—ever ready with relief and comfort in disaster—these are some of the services that demand a strong Red Cross in peacetime too.

THE RED CROSS NEEDS YOU!

Won't you add your membership to aid this great work? A subscription of one dollar or more entitles you to membership in the Canadian Red Cross Society and a share in its great work for humanity. If a Red Cross canvasser has not called on you, may send your subscription direct to

CANADIAN RED CROSS SOCIETY, ALBERTA DIVISION, 1501 First Street East, CALGARY, ALTA.

An acknowledgement and membership card will be mailed to you promptly.

GET READY FOR

Spring Driving

Let us pep up your car, ready for the many long miles you will drive through the spring and summer months.

Clean, fresh oil, new grease, battery inspection, lights inspected, radiator cleaned, wheels adjusted.

These are just a few of the many items which we will give you so you can call in and authorize us to give it a spring check-up. DRIVE IN-TODAY!

MISCELLANEOUS SHOWERS

A miscellaneous shower was held in the IOOF hall on Friday, March 1, in honor of Mrs. C. Hayward, nee Hazel Collings. Hostesses included Mrs. S. W. Panek, Mrs. A. Dodds, Mrs. D. Lord, Mrs. A. Valien and Miss Anne Salus.

Whist and bingo were played, winners being Mrs. L. Brown, Mrs. B. Cherneky and Mrs. L. Krish. The bean guessing contest was won by Miss Christina Bubniak. Following a dainty lunch, which was served by the hostesses, the honored guest was presented with many beautiful and useful gifts, for which she ably expressed her thanks.

A miscellaneous shower was held in the St. Alban's parish hall on Monday evening in honor of Miss Dorothy Gate, bride-elect. Hostesses included Mrs. Wm. Martland, Mrs. Ernie Hill and Mrs. Steve Penney. Approximately 60 guests were present.

Whist was played, prizes being won by Mrs. J. Rogers and Miss

Dorothy Gate. Bingo winners were Mrs. Annie Hirst and Mrs. A. Fry. Singing was also enjoyed, Mrs. Jack Goulding presiding at the piano.

On behalf of the assembled friends Mrs. Penney presented the honored guest with a basket overflowing with beautiful and useful gifts, for which Miss Gate ably expressed her thanks. The party broke up with the gathering singing "For she's a jolly good fellow."

HONORED

Miss Margaret Roughhead entertained a few friends at her home on Friday evening in honor of Miss Dorothy Gate, bride-elect of the month. After a pleasant evening and delicious lunch, Miss Roughhead presented Miss Gate with a lovely basket of gifts on behalf of those present.

Art. Valien, of the RCA, stationed at Medicine Hat, has returned to his base after a furlough spent with his wife and family here.

THEATRE NOTES

"CAPTAIN KIDD"

The King's treasure is plundered, the King's ship sunk and the King's men murdered in "Captain Kidd," a Benedict Borges production coming to the Palace theatre on Saturday.

Charles Laughton stars as the wily pirate Kidd. And the devil's own crew is headed by Randolph Scott, John Carradine and Gilbert Roland. Reginald Owen finds his place on board the "Adventure" galley in the role of a "gentleman's gentleman," hired by Kidd to polish

off his manners.

Under permit of the King's Royal Seal, Kidd lifts anchor and sails out to safe-convoy the richly-laden "Quedagh Merchant" from India to England. A Lordship and a Lord's estates are to be Kidd's Royal reward for services faithfully rendered. And Kidd, with his greedy eye on the Royal reward, secretly plans to augment it by splitting the "Quedagh Merchant's" treasure with His Majesty.

"YOU CAME ALONG"

Coming to Believe this week end is the highly entertaining "You Came Along," starring Robert Cummings, Elizabeth Scott, Don DeFore and Charles Drake. It is a story of three flyers back from the war who are assigned on a war bond selling campaign and are placed under the charge of a government representative, who turns out to be a beautiful young woman, who is to accompany them in the tour. Their adventures, high jinks and ultimately love affair makes for a fast-paced highy entertainment which may draw a tear or two as the story comes to its conclusion.

National Employment Service

benefits THE WHOLE community

Regular employment and pay envelopes make for carefree families—for prosperous communities—for "good times" for employer and employee alike. The National Employment Service, with offices in more than 200 cities and towns across Canada, serves the needs of both employers and employees—and the local N. E. S. office takes its place in importance to the community among the time honoured community institutions—the Post Office, the Court House, the City Hall

Without National Employment Service, the worker is left to his own initiative to find a job to support himself and his family. The employer may be unable to reach workers he requires. National Employment Service is the clearing house through which employer and employee are brought together, so that both may have their free choice of the entire employment market.

National Employment Service has
5 main functions:

- 1—Organization of the whole employment market, and bringing together employers and employees;
- 2—Collection of information on employment problems for the use of Government, Management and Labour;
- 3—Administration of Reinstatement in Civil Employment Act;
- 4—Dealing with Unemployment Insurance Benefits;
- 5—Dealing with Out-of-Work Benefits for Ex-Service Personnel.

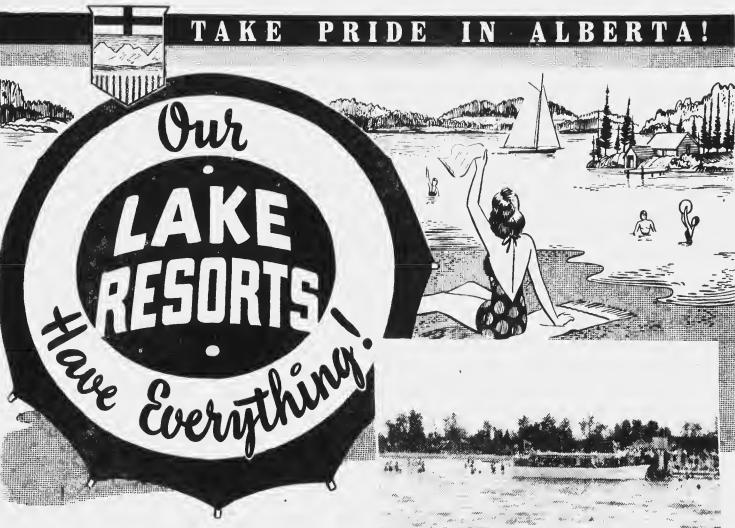

Make full use of the Local Office of National Employment Service. It is there to serve your needs, and those of the entire Community.

WE WILL CATER TO
AFTER THEATRE PARTIES

Make your appointment any evening—and let us do the rest

THE RITE SPOT
FRED WEIR, Proprietor

Albertans are lovers of the great outdoors and a kindly nature provided ample means to indulge their liking. Here, strategically nestled among wooded hills and picturesque prairie settings, such beauty spots as Elk Island Park, Gull Lake, Sylvan, Pigeon, Buffalo, Sullivan, Wabamun, Cooking, Birch, Lac St. Ann and many other stream and spring-fed lakes are within easy driving distance of most every Alberta home.

*Sylvan Lake is typical
of our provincial playgrounds*

Located approximately 100 miles north of Calgary and 100 miles south of Edmonton, just west of Red Deer, Sylvan Lake Resort features every facility for full expression of your week-end or vacation mood. Warm sunny days and cool, bracing nights combine to induce perfect relaxation. A gay array of sports and amusements: Fishing, swimming, boating, golfing, bowling, riding, tennis and hiking provide plenty of scope for recreation and fun; theatres, fine dancing pavilions and planned aquatic sports cater to your entertainment moods. Overlooking the lake is a modern, fully licensed hotel with cheery comfortable rooms and smart, convenient appointments.

YES... ALBERTA'S LAKE RESORTS HAVE EVERYTHING... ENJOY THEM OFTEN THIS SUMMER.

To Preserve Peace

EVENTS OF THE PAST THIRTY YEARS have shown that passive measures are not effective in preserving the peace of the world. Disarmament agreements, non-aggression treaties and other measures of that nature proved worthless in preventing two world wars, and it is apparent that in the future this problem will be approached in quite a different manner. It is clearly recognized now that only can we hope for lasting peace and security if the peace-loving nations of the world are fully geared for war and ready to take action at the first sign of international lawlessness. It is to be hoped that this realistic attitude will be maintained and that present plans for collective security will be successfully carried out. It is important that serious thought be given to these matters now before there is time for any feeling of apathy to develop in regard to them.

Canada Will Be Prepared

It is evident that should there be another war, Canada does not intend to be as unprepared as she was in 1914, and again in 1939. On both these occasions much valuable time was lost in organizing the armed forces and industry for war. It is entirely safe to say that no people in the world are more anxious for permanent peace than are Canadians, but they also realize that should there be another war, the price of unpreparedness would without doubt be much higher than it has ever been before. All the implications of the effect which the discovery of the atomic bomb may have upon warfare in the future are not yet fully known, but there is no doubt but that if another war should come, time would be a much more important factor than it has ever been before.

Modern Weapons Are Important

There was a constant race on both sides for the invention and production of new weapons. When the atomic bomb was produced, the war ended. Had it been discovered first by the enemy, history would now be taking a different course. Recognizing the importance of all this, a Department of Research and Development has been added to the Dominion Department of National Defense. The work of this department will be to discover and develop the newest types of weapons for our armed forces, should they be needed. A crown company, known as Canadian Arsenals Limited has also been organized. The function of this company will be to effect the speedy conversion of industry to a wartime basis. It is not pleasant to contemplate the possibility of another war, or to prepare for it, but such preparedness may be the surest way of preserving peace and preventing further aggression.

SOME COMPENSATION

The Brandon Expositor says people in that rural area will feel some sympathy for the farmer up Windsor way who told a neighbor that he had sold a pig for eight dollars. "What did it cost to raise?" asked his neighbor. "Paid three for hams and five more for feed," was the reply. "Didn't make much, did you?" "Nope, but I had his company all fall!"

Price Control And Rationing Information

Q—Would you kindly give me a list of ration coupons which will become valid in the month of March?

- A—March 7: Meat "M" 27, Sugar "S" 2 and Butter "R" 3;
- March 14: Meat "M" 29, Sugar "S" 3 and "B" 4 and Butter "R" 4;
- March 28: Meat "M" 30.

Q—We live on a farm and slaughter meat for our own use. Are we supposed to turn in our meat coupons even though we do not need them for the purchase of meat?

A—Farmers are required to turn in meat coupons to the local ration board in their district to cover the meat consumed by them, even though the meat has been slaughtered by themselves.

—o—

Q—How many days may a patient be in a hospital before he surrenders ration coupons?

A—After a patient has been in a hospital for two weeks' continuous residence he must have his ration book available for the use of the hospital.

—o—

Q—My butcher was complaining the other day that he is always running out of meat tokens. I can't understand why there should be a shortage of these tokens.

A—Consumers are to blame for the disappearance of the meat tokens. The ladies appear to be careless with them and do not keep them handy in their purse when they shopping. It would greatly assist the butchers if all shoppers would have their meat tokens available when purchasing their meat.

Please send your questions or your request for the pamphlet "Consumers' News" or the Blue Book in which you keep track of your ceiling prices, mentioning the name of this paper to the nearest War-time Prices and Trade Board office in your province.

Reaches High Speed

Tests Show Hockey Puck Travels 88 Miles An Hour

The average speed of a hockey puck is 88 miles an hour, Dr. Dana Warren, Omaha University physics professor, said on the basis of a long series of tests with an oscilloscope.

After putting one set of photoelectric cells in front of the blue line and another fifty-five feet away across the net, Dr. Warren had George Homenuke of the Omaha Knights team hang away until the average was reached.

Team spokesman said the puck's top speed "much faster than the determined average."

In modern warfare an "asparagus" is made up of rows of steel rails set in the ground to stop tanks.

Answer To Last Week's Puzzle

ON VALUABLE SITE

But No One Seems To Want Apsley House In London

It is odd to read that Apsley House, which the Duke of Wellington recently offered to the Government, is more or less going begging.

No one seems able to make up their mind what to do with it. Popularly known as Number 1 London, it occupies one of the finest and most valuable sites in the city. The site itself, despite the fact that the house was originally donated by George II to old soldiers wherein he might build a hut and sell his apples.

On one side it looks out on Piccadilly and the Green Park, on the other on Rotten Row and Hyde Park. One of the difficulties about its disposal may be due to the fact that the Crown reserved the right to forbid the erection of any other house or houses on the same site. Otherwise the position would be ideal for one of the great West End clubs, so many of which lost their headquarters in the blitz. But the house boasts few modern amenities and much money would have to be expended on its modernization—London correspondent, Ottawa Journal.

Blended for Quality "SALADA" TEA

Lack Of Fruit

ICause Of Skin Trouble Among Children In Britain

Britain's children, according to a doctor, have been forced to adopt an 18th century fruit diet.

"Worshippers who intend to put buttons in the collection are requested to give their own, not pull them off the ha'ssocks."

The wedding presents were on view. Displayed in a prominent position was a check for \$1,000, the gift of the bride's father.

"It's very nice that chap laughing at your father's check," exclaimed the bridegroom, feeling annoyed.

"Oh, that's the bank manager?" said the bride.

Fairy tale of 1946: Once upon a time a man went into a store and asked: "Have you any boxed chocolates?" and the clerk smilingly answered: "Sure. How many would you like?"

Gat: "The only difference between you and a mule is that a mule wears a collar."

Sabir: "But I wear a collar, too."

Gat: "Then I was mistaken; there is no difference."

"This man is annoying me, constable."

"Put him isn't even looking at you."

"That's what's annoying me."

Mistress: "How beautifully these things are ironed, Jane."

Maid: "Yes, mma, them's mine—and I'll do yours the same if I have time."

Gude: "This, ladies and gentlemen, is the greatest catarract in the country. And if the ladies will only be silent for a moment you can hear the deafening roar of the waters."

Maid: "But I cleaned all the silverware only Wednesday last."

Mrs.: "Clean? Clean? There's an epidemic of burglary in this neighborhood and I'd hate to have it go out looking like it does."

Traveller: "What is this place noted for?"

Guide: "Sir, this is the starting point for any place in the world. You can start from here and go anywhere you want to."

Joe: "That college turns out some great men."

Bill: "When did you graduate?"

Joe: "I didn't graduate. I was turned out."

The Crying-pain fish, a catfish of Arctic origin, is named after the cooking utensil because of its rounded body and handle-like tail.

INDIA ASKING CANADA FOR MORE CEREALS TO CARRY THEM THROUGH THIS YEAR

OTTAWA. India now is in the throes of a famine worse than that of 1943 and is looking to Canada and the United States—particularly to Canada—to supply the cereals needed to carry the Indian people through to the end of this year. Sir Ramaswami Mudaliar, prominent Indian statesman, said in an interview.

Sir Ramaswami, meeting newspapermen after discussions with members of the Canadian cabinet, said India was not asking for charity or credit. She was willing to pay for all the cereals she could obtain and should be paid badly.

India needs 1,600,000 tons of cereals to carry her through until the end of June, he said. Most of the amount would have to be in wheat, probably some 1,700,000 tons because of the difficulty of getting rice from Siam.

India's food shortage was due entirely to nature's conditions. Cyclones in October were followed by floods and the floods by an unprecedented drought.

Sir Ramaswami said Canadian cabinet ministers had expressed their willingness to help India but had stated that only position was not as good as they would like it to be to meet demands.

In an address over a CBC national network, he appealed especially to farmers to declare their wheat surplus so the Canadian government might know how much could be sent to India.

Sir Ramaswami said his understanding was that Canadian farmers were allowed to retain as much wheat as they could store on their farms. To farmers who were holding back wheat in the hope of better prices, he had this to say:

"I appeal from the heart of one human being to another please do not hold back. Please, try as a human being to save another human being's life."

He could not base his appeal on common ties of race or language but be based it on basic ideas both countries shared, for which they had tough through two great wars—ideas of freedom, justice, fair play and consideration for the weak and underprivileged.

POLISH AIRMEN

Allowed To Stay In Canada When Released From Service

OTTAWA. Polish airmen at Montreal's Dorval airport who feared repatriation on the ground their lives might be "in jeopardy" if they returned to Poland will be able to stay in Canada on their release from the service.

The 42 airmen, whose repatriation appeared likely with the breaking up of the R.A.F. transport command squadrons to which they were attached, will be able to stay in Canada at least a year, and remain permanently if they are married to Canadian girls.

DEFENCE SCHEME

Plan For British Empire May Be Discussed This Year

LONDON.—A single defence scheme for the British Empire, embracing all of the dominions and colonies as well as the United Kingdom, will be discussed at the prime minister's conference here later this year, the Evening Standard said.

The newspaper said the proposal was prepared by Lord Alabrooke, wartime chief of the imperial general staff, as a result of a tour of the empire he made in 1945. The Standard added: "If it is accepted by the dominions, it probably will lead to the setting up of an empire defence board on which would sit navy, army and air force representatives of Britain and all the dominions."

The prime minister's conference is expected to meet some time after April, but before the Paris peace conference, which originally was scheduled for May 1 but which is expected to be postponed. At the London meeting, empire leaders will discuss their stand in regard to peace terms, commonwealth co-operation in defence and imperial preference.

STAYING ON JOB

Workers In France Think Strikes Would Make Things Worse

PARIS. France, in a highly-settled political situation, is a country without strikes. French workers, in spite of traditional inclination to solve disputes by strikes and violence, are staying on the job with purchasing power about half that of before the war.

France has become a country of extreme poverty. Farm production is down to pre-war levels—quartermasters of pre-war industrial activity is only about 55 per cent of pre-war.

These hard facts have led realistic French labor leaders to avoid strikes and slowdowns which would only worsen the present miserable living condition of French workers. The government's desperate effort to control prices and allocate food and clothing rations with inadequate supplies contrasts with flourishing black markets with prices four to 10 times the official ceiling.

LESS COARSE GRAIN

OTTAWA. The Dominion bureau of statistics in a quarterly review of the coarse grain situation in Canada said estimated supplies of feed grains available for the crop year have had to undergo further downward revision from the September estimate, and a downward trend in numbers of livestock is continuing.

USING JET POWER

TORONTO. James D. Pearson, chief technical service engineer of the Avro-Canada group, English, told a meeting that no future high-speed military aircraft will be designed without jet propulsion engines.

AS BEVIN ADDRESSES U.N.O. SECURITY COUNCIL—Verbal barages accompanied a speech on the Indonesia situation by Foreign Secretary Ernest Bevin in security council of the U.N.O.

FOR RESCUE WORK

Canadian Flying Officer Has Been Awarded The George Medal

OTTAWA.—Award of the George Medal to Flying Officer J. J. Baillie of Westville, N.S., for "outstanding gallantry" in rescuing three men from a crashed Dakota aircraft in Burma in 1945 was announced by R.C.A.F. headquarters.

Flying Officer Baillie, who transferred from the army to the R.C.A.F. in 1942, was navigator of the aircraft when it crashed June 14, 1945, near Myitmar in central Burma. His clothing on fire, the citation said, he disengaged himself and "although suffering from multiple injuries, a broken cheekbone and concussion, he dragged two Indian other ranks clear of the wreckage."

Hearing screams from the burning plane, he went back and despite further burns to his hands and face, he rescued the delirious wireless operator, who resisted his efforts.

STARTS EPIDEMIC

Indian Mail Carriers Take "Flu To Northern Trading Post

THE PAS. Man—Two Indian mail carriers who rushed into York Factory, northern trading post, Feb. 12 brought with them influenza which spread throughout the coastal trading settlements, Dr. Robert F. Yule, medical superintendent, department of Indian affairs, reported here.

Dr. Yule, who returned from a flying tour of York Factory, only two were not ill when the doctor arrived. The two were the dog mushers who had recovered.

Scars were afflicted but only two deaths were reported. Of the 300 residents of York Factory, only two were not ill when the doctor arrived. The two were the dog mushers who had recovered.

Community chest drives across Canada this year will cost approximately \$60,000,000 was made by Miss Nora Lea, of Ottawa, assistant director of the Canadian Welfare Council, in an interview.

Last year, community chest campaigns obtained a total of \$6,610,500, but it now was necessary to meet needs which had not been attended to during the war emergency.

AMERICAN PEOPLE WILL BE ASKED TO MAKE SACRIFICES TO FEED STARVING NATIONS

WASHINGTON.—President Truman called a white house conference up to the middle of February had of influential Americans to organize voluntary sacrifices here so that millions threatened with imminent starvation abroad may be saved.

Former President Herbert Hoover and 12 other leaders of American business and the professions to help organize an aggressive voluntary program on the part of private citizens to reduce food consumption in this country.

This action follows a series of desperate warnings from the United Nations Relief and Rehabilitation Administration and other responsible quarters seeking to impress Americans with the grim fact that millions are almost certain to die of starvation in Europe, India and Asia unless more food is made available from North America.

Canada and the United States are the main supplying countries and Canada, according to the best information available, is doing her share.

Canada's responsibility for meat contributions to UNRRA this year is 79,000,000 pounds. More than one-third of this quota has been delivered.

The United States was committed to send 627,000,000 pounds, 300,000,

MINIMUM PRICE

Line Elevator Companies Ask At Least \$1.80 For Wheat

WINNIPEG.—The Dominion government urged to pay Canadian farmers on a basis of not less than \$1.80 a bushel on all wheat marketed since Aug. 1 in a communication directed to Prime Minister Mackenzie King by the Canadian Wheat Board.

The present domestic price of \$1.25 a bushel, basis No. 1 Northern Fort William and Vancouver, and the export price is \$1.55 a bushel. The grower also participates in any profits made by the Canadian wheat board through which all wheat is marketed.

Cecil Lamont, president, North-West Line Elevators, asked that the price of not less than \$1.80 a bushel apply to wheat sold for export in domestic markets.

He also urged the government to eliminate middlemen in domestic wheat consumption; that a commission be set up to recommend to the government a means of "properly compensating" growers of coarse grains and that the income tax be revised to apply "more fairly" to farming operations.

Community Chest Drives Expected To Cost More This Year

EDMONTON.—An estimate that community chest drives across Canada this year will cost approximately \$60,000,000 was made by Miss Nora Lea, of Ottawa, assistant director of the Canadian Welfare Council, in an interview.

Last year, community chest campaigns obtained a total of \$6,610,500, but it now was necessary to meet needs which had not been attended to during the war emergency.

ANNOUNCEMENT MADE THAT INDIAN TROOPS ARE TO BE WITHDRAWN FROM INDONESIA

LONDON.—An official announcement broadcast by the New Delhi radio said that the Indian troops who form the bulk of the British force in Dutch East Indies would begin leaving the island March 1 and will complete their withdrawal by July.

New Delhi said Gen. Sir Claude Auchinleck, British commander-in-chief for India, announced the scheduled evacuation before a meeting of the Indian central legislature.

Auchinleck said the civil or political problems which have arisen in Indonesia were not the affair of the Allied military authorities and that it was up to the Dutch and Indonesians to reach a peaceful settlement.

The sole concern of the Allied military command, he said, was to provide such conditions in Java and the other Dutch East Indies islands as would permit peaceful discussions to take place.

Consequently, Auchinleck said, the British Indian forces in the islands have been ordered to start their withdrawal.

His announcement, in effect, meant

MOVE TO MERGE GERMAN PARTIES IN RUSSIAN ZONE CAUSES WORRY IN LONDON

LONDON.—Current moves in the Russian zone of Germany to merge the Social Democratic and Communist parties, which probably eventually will result in creation of a virtually one-party political system, are being monitored with interest by German Communists, who are being watched with the utmost care and with some uneasiness by the British government.

The present domestic price of \$1.25 a bushel, basis No. 1 Northern Fort William and Vancouver, and the export price is \$1.55 a bushel. The grower also participates in any profits made by the Canadian wheat board through which all wheat is marketed.

Cecil Lamont, president, North-West Line Elevators, asked that the price of not less than \$1.80 a bushel apply to wheat sold for export in domestic markets.

He also urged the government to eliminate middlemen in domestic wheat consumption; that a commission be set up to recommend to the government a means of "properly compensating" growers of coarse grains and that the income tax be revised to apply "more fairly" to farming operations.

Community chest drives across Canada this year will cost approximately \$60,000,000 was made by Miss Nora Lea, of Ottawa, assistant director of the Canadian Welfare Council, in an interview.

Last year, community chest campaigns obtained a total of \$6,610,500, but it now was necessary to meet needs which had not been attended to during the war emergency.

Politically east and west in Germany would be irreconcileable and the struggle will focus on a battle between Schumacher and Wilhelm Pieck, leader of the German Communists and one of Generalissimo Stalin's chief advisers on German affairs.

While there is nothing in the Potsdam agreement for Germany to prevent fusion of political parties, the trend in the Russian zone is foreign to British and United States' ideas for democracy in Germany, which the occupying powers are supposed to re-establish.

The impending merger in the Russian zone is bound to arouse suspicion as to motives and the question may come up for discussion in the Allied control council.

DEVELOP NEW DRUG

LONDON.—Scientists of Imperial Chemical Industries have developed a new and revolutionary anti-malaria drug from coal tar. It is known as "Paludrine" and is far more powerful and effective than any other anti-malaria drug. It is 10 times more powerful than quinine and three times more powerful than mepacrine.

Fusion would aggravate political contrasts between the eastern and western zones and create a wide breach, it is believed by authorities here.

In the western zones the Social Democrats under Dr. Kurt Schumacher have turned down all Communist invitations for a merger and stand aloof from any Communist-dominated alliance in the Russian zone.

The China-Burma-India pipeline, longest in the world is about a fourth longer than U.S. "Big Inch".

HAD GOOD RECORD

RIVERSIDE, Calif.—Note to men who complain about women drivers: the army announced release of four of its women drivers of heavy duty military trucks at March Field. Each of the women, said the army, had exceeded 300,000 miles without an accident.

AMERICAN PEOPLE WILL BE ASKED TO MAKE SACRIFICES TO FEED STARVING NATIONS

DISORDERS SPREADING THROUGHOUT INDIA

Street fighting in Calcutta became so violent that policemen like this were brushed into the background. Martial law was declared and troops and tanks rushed in.

The riots began when Indians protested the seven-year sentence of a Moslem officer of Japanese "Indian National Army". Today police are armed with guns. They have already been forced to fire on rioters.

CANADIAN PADRE AWARDED VICTORIA CROSS

Canada's 14th V.C. winner is Honorary Major John W. Fote, awarded the empire's highest decoration for valor in moving wounded from Dieppe Beach. Formerly of Hamilton and Port Hope, Ont., and now senior Protestant chaplain at Camp Borden, Ont., he is the first chaplain in the Canadian armed forces ever to win the empire's highest decoration.
